April Review

It was another month of great ones, and we’re so grateful for the hard work of our teams and the ongoing support of our partners. As we reflect on the last month’s developments, we can’t help wondering how much things will look different next year.

First, consider the successes of our team at Vista Exchange. We’ve been thrilled to see our member community expand and thrive, and we’re excited to keep building on that momentum in the months ahead.

Second, we’re proud of the ongoing work our team is doing on behalf of our portfolio companies. From product innovation to market expansion, we’re seeing our companies drive transformative change in their respective industries.

Third, we’re encouraged by the progress we’ve made on our environmental sustainability efforts. In April, Earth Day provided an opportunity to reflect on what more we can each do to help create a more sustainable future.

Fourth, we’re excited about the future of our companies. With the current economic climate, we continue to see growth and opportunity in our portfolio companies, and we’re confident that our team will be able to help them navigate these challenging times.

Finally, we’d like to recognize the continued hard work of our team. We’re grateful for their dedication and commitment to our mission, and we can’t wait to see what the future holds.

Thank you, as always, for your support and partnership. We look forward to continuing to work together to create a more equitable future.

Our Commitment to Stakeholders

We continue to recognize the opportunity and responsibility we have to make a positive impact on the world through our actions. We are committed to adhering to the highest standards of integrity throughout the investment lifecycle – from due diligence to product offerings and solutions that generate a positive impact.

We are proud of the ongoing work we do to incorporate Environmental, Social, and Governance (ESG) considerations into our investment strategies in every stage of the investment lifecycle – from due diligence to product offerings and solutions that generate a positive impact.

We partner closely with our portfolio companies to help them incorporate ESG efforts, and we work to ensure that our investments align with our values.

We believe that by working together, we can create a more equitable future for all.
